LinkedIn: www.linkedin.com/in/mataja-maughan-0ab80316a/

Full Stack Web Developer with a background in Pharmacy and customer service. Embodies a strong desire to always self-improve, using exceptional organizational and problem solving skills. Capable of taking charge in large projects to improve and achieve daily and long term goals for the company.

Technical Skills

- | | | |
|--------------|-------------|---------|
| • HTML | • Node | • Git |
| • CSS | • Sequelize | • MySQL |
| • Javascript | • Express | • Mongo |
| • jQuery | • Heroku | • React |

Projects

Eat the Burger | <https://github.com/TajaMaughan/burger>

This project utilizes a custom ORM to access a MySQL database that holds a list of burgers, and keeps track of whether it has been “devoured” or is still uneaten. It is hosted on Heroku at <https://mysterious-basin-54212.herokuapp.com/>.

Bummer Passwords | <https://github.com/TajaMaughan/BummerPasswords>

Team lead for project. Written with Javascript, HTML, and CSS. Used Bootstrap for CSS framework. Designed to generate and store passwords for individual users. Used Firebase for user authentication and password storage.

GIF Generator | <https://github.com/TajaMaughan/GifGenerator>

A project that I worked on individually that utilizes AJAX calls to generate a set of GIFs, that when clicked can be animated. User can add their own search term and expand the number of keywords.

Experience

Smith's Food and Drug	Sunset - Bountiful - Logan, Utah	April 2017 - Current,
<i>Pharmacy Technician</i>		July 2013 - January 2016
